

TIG - P Series (IGBT) Inverter DC TIG Welder

TIG - 400P/DC

Standard Accessories

- 1 pc WC-400 TIG torch (4m)
- 1 set earth clamp with 35mm² cable (2m)

Product description:

- Exact digital current and voltage preset, it makes the machine be easy operated.
- High voltage arc striking and welding cable can be lengthened to 30 meters.
- Advanced IGBT inverter technology, high working frequency, high working efficiency and energy saving.
- One machine with TIG / MMA welding.
- Independently adjustable of pre-flow and post-flow, easy operation.
- Independently adjustable of upslope and downslope, effectively control welding process.
- High frequency and low frequency of pulse frequency, which is suitable for manual and automatic welding.
- With arc ending adjustment, it reduces the working intensity greatly.
- With good protection of under voltage, over voltage and over current, it makes the machine safe and reliable.
- With tri-proof design, it ensures working stable and reliable when in kinds of adverse circumstances

Main technical parameters:

	TIG - 400P/DC
Input power voltage (V)	AC415V ± 10%
Frequency (HZ)	50/60
Rated input current (A)	TIG: 15 MMA: 20
Rated output voltage (V)	TIG: 23 MMA: 32
No-load voltage (V)	68
Current adjusting range	12-400
Duty cycle (%)	60
Arc starting	HF vibration
Case protection degree	IP21S
Weight (kg)	33
Dimensions in mm	590X350X600
